

Republic of the Philippines DEPARTMENT OF EDUCATION Region XIII

Caraga Administrative Region SCHOOLS DIVISION OFFICE OF SURIGAO CITY

January 24, 2019

DIVISION MEMORANDUM No. 20_s., 2019

MASSIVE AND URGENT CLEAN-UP DRIVE

To: Asst. Schools Division Superintendent
Chiefs, CID and SGOD
Public School District Supervisors
Principals/School Heads
Teaching and Non-Teaching Personnel
This Division

- Dengue is a Mosquito Borne Disease which is fatal to our health and due to high incidence of Dengue cases in our City today with more than 100 cases admitted in our hospitals, public and private which mostly affects our school children. Attached is a report from DOH Caraga.
- 2. Therefore, it is high and urgent time for us to clean our school surrounding, especially abandoned classrooms with toilets, stagnant canals, roof gutters and small and big water containers.
- 3. It is likewise needed to seek help from our PTA officials and members in this endeavor. Cleaning all classrooms in the elementary and especially in the secondary school is essential. Pupils and students are responsible to clean the rooms with the supervision of the class advisers.
- 4. School heads in coordination with the parents shall schedule the clean-up in schools everyday initiating the massive and cleadup drive every four o'cloxk in the afternoon.
- 5. It is timely indeed that on January 26, 2019 (Saturday) is the Early Registration Day, conduct advocacy to all parents in the community to provide us their time to clean not only for the benefit of their children but everybody in the barangay to lessen if not eliminate this health problem.

Republic of the Philippines DEPARTMENT OF EDUCATION Region XIII

Caraga Administrative Region SCHOOLS DIVISION OFFICE OF SURIGAO CITY

Roxas St, CV Diez MCES Compound, Brgv. Washington Surigao City, Telefax: (086) 826-3075; Tel Nos. (086) 826-8931, 826-1268

- Health personnel must also initiate the survey of the different schools to identify possible breeding places of mosquitoes and coordinate with the proper authorities to destroy these areas.
- 7. As the host of the incoming Regional Atheletic Meet, it is also necessary to provide our delegates with safe and healthy environment most especially our learners who are in schools to be safe from this mosquito-born disease.
- 8. Our goal to prevent Dengue start within ourselves by maintining cleanliness in our surrounding by applying the 4S Strategy: 1. Search and destroy mosquito breeding places, 2. Secure self-protection, 3. Seek early consultation and 4. Support fogging/spraying.
- 9. For wide dissemination and strict compliance.

GILDA G. BERTE, PhD.,CESO VI Schools Division Superindent
